This second edition Masterclass in Imaging of Gynaecological Cancers is a highly commended one-day teaching course which will highlight current imaging techniques, image interpretation and pitfalls in imaging gynaecological malignancies. Workshop-style teaching with individual imaging workstations in small groups will provide participants with a stimulating and highly interactive learning experience.

- Mentored case-based learning of 35 – 40 cases
- Each case chosen to illustrate specific learning points
- Detailed workbook and course material to take home

Learning objectives

For this course:

- Role of imaging in the diagnosis and evaluation of gynaecological malignancy
- To understand and apply the FIGO staging system
- To appreciate the application of imaging in deciding treatment options for gynaecological cancers
- To assess treatment response, complication of treatment and detection of recurrent disease

CPD

Attendees will receive a certificate showing 6 (category 1) CPD points awarded by the Royal College of Radiologists.
