

Workshop Preferences

The computer hands-on workshops are limited to 47 delegates. To ensure all delegates have an opportunity to attend a hands-on workshop please **choose only one hands-on workshop from the six below**. There may be an opportunity onsite to attend additional workshops if any spaces become available. These will be allocated on a first come first served basis.

Tuesday 29th September (Morning)	
HS1	PI-RADS v2.1
Tuesday 29th September (Afternoon)	
HS2	Lung/Chest
Wednesday 30th September (Morning)	
HS3	CT/MRI LI-RADS
Wednesday 30th September (Afternoon)	
HS4	Characterising soft tissue masses – retroperitoneum to the extremities. A systematic approach.
Thursday 1st October (Morning)	
HS5	Colorectal MRI
Thursday 1st October (Afternoon)	
HS6	Whole-body MRI

International Cancer Imaging Society

We meet the important challenges of advancing imaging in the multidisciplinary management of cancer by promoting education in oncological imaging and stimulating research in the study of tumour behaviour.

icimatingsociety.org.uk

About the Course

This course is designed for all radiologists, radiation oncologists, medical oncologists and other specialists interested in the diagnosis and management of cancer patients.

Learning objectives

To improve your knowledge of

- Cancer diagnosis
- Cancer staging
- Response assessment
- Post-procedural assessment
- Emergency/side effects/complications of oncologic therapies
- Interventional radiology in oncologic patients
- Structured reporting
- Imaging protocols in cancer imaging
- Differential diagnosis of focal lesions

High quality educational lectures and hands-on workshops

- Refresh your knowledge of cancer imaging and learn about cutting edge developments
- Learn about state of the art multimodality cancer imaging using MRI, CT and PET
- Improve your knowledge of the mechanism of different drugs used in the treatment of cancer
- Bring your knowledge into practice in workstation based teaching in our hands-on workshops
- Focus on interventional radiology in oncology: from diagnosis to treatment
- Experience the role of cancer imaging in multidisciplinary interaction: treatment selection, early response prediction and treatment adaptation
- Learn how big data initiatives are changing the future of cancer imaging: radiogenomics, AI and machine learning

Prizes will be awarded for the best proffered papers and posters.

Registration and Information

Registration Fees

Members per person	Includes coffee/tea and lunch each day and reception drinks on Tuesday	3 days	£575
		2 days	£450
		1 day	£245
Non-Members per person	Includes coffee/tea and lunch each day and reception drinks on Tuesday	3 days	£635
		2 days	£515
		1 day	£285
Abstract presenter/ Trainee/ Resident per person	Includes coffee/tea and lunch each day and reception drinks on Tuesday	3 days	£390
		2 days	£300
		1 day	£170
Needs a supporting letter from the Head of Department/Training			
All scientific presenters are required to be a member of the Society. Membership to be paid with registration, in addition to registration fee			Plus £80 membership and £40 for Trainees
Course party per person			£60

📄 Call for papers/posters

Submission of abstracts (no more than 250 words) for scientific papers, case based presentations and posters are invited.

Submission is via the ICIS website: icimatingsociety.org.uk

Queries may be addressed to the ICIS Secretariat

Email: admin@cancerimatingsociety.org.uk

Submission deadline: **Monday 1st June 2020**

Accepted abstracts will be published in the Proceedings of the 20th International Cancer Imaging Society meeting, available onsite and online. A downloadable version of posters will be made available to our membership. Authors of selected abstracts will be notified in July 2020.

It will be obligatory for all scientific presenters to be members of ICIS at the time of presentation. The annual membership fee of £80 (£40 for Trainees) will be added to the scientific presenters' fee at registration if current membership is not in place. Membership will run for one year from date of registration; all standard member benefits will apply.

✓ Accreditation

Royal College of Radiologists – 18 CPD credits are awarded for the three day course (comprising Tuesday 6.5, Wednesday 6.5, Thursday 5).

European Accreditation Council for Continuing Medical Education (EACCME) accreditation has been applied for.

Personal certificates can be generated following completion of the ICIS 2020 daily online feedback form

EACCME European CME Credits (ECMEC@s) can be converted to AMA PRA Category 1 Credit™ by applying to the AMA.

! IMPORTANT INFORMATION

Reservations are subject to availability and will only be confirmed on receipt of full payment.

Refunds (minus an administration charge of £80) will only be made if written notification is received by 11th September 2020. Thereafter no refunds will be made.

Travel and accommodation information:

Air: The Royal Society of Medicine is in central London and can be accessed using any of the London airports.

Accommodation: Details of accommodation are available on the ICIS website. Delegates are responsible for making their own arrangements. We strongly recommend you book early to secure the best rates.

👥 Socials

1 Wimpole Street - home of The Royal Society of Medicine

A complimentary Welcome Reception will take place after lectures on Tuesday 29th September at the Royal Society of Medicine.

The Course Party will take place on Wednesday 30th September at the nearby Royal College of Physicians. Please purchase your ticket while registering for the course on the ICIS website. Tickets cost £60 and include a welcome drink, three course buffet dinner, half a bottle of wine, teas and coffees. Prizes for the best posters and oral presentations will be awarded during the dinner. We hope to see you there!

👥 ICIS Membership – Renew or Join us

Membership includes:

1. Discounted registration fees for the Annual Teaching Course & Computer Hands-on-Workshops
2. Access to our e-learning hub which includes posters & lectures presented at the Annual Teaching Courses.
3. Access to our eminent ICIS Fellowship and other ICIS members providing opportunities to exchange ideas, discuss hot topics and interesting cases in oncological radiology.
4. 20% discount on article-processing fees for our journal Cancer Imaging.
5. 20% discount on CRC Press radiology and oncology publications.
6. E-mailed regular newsletters featuring the latest news from the Society and Journal.

Membership is open to all individuals with an interest in cancer imaging for only £80 a year. Trainees can join for only £40 a year.

Just tick the box on the registration and payment form, and include the relevant fee with your payment. You will make an immediate saving on the annual course; attend an ICISi workshop for a further saving!

☰ Short Overview

Venue

Royal Society of Medicine, 1 Wimpole Street, London, W1G 0AE

Date

Tuesday 29th September to Thursday 1st October 2020

Keynote lectures

- Seeing is believing
- Cancer survivorship - imaging implication
- Harnessing the human genome

Plenary sessions – State of the Art Oncological Imaging

- Artificial intelligence
- Lymphoma
- Imaging techniques
- Radiation therapy
- Royal College of Radiologists session: Education and training
- Surgical and focal therapies
- Cancer genetics
- Interventional oncology
- Mimics of malignancy

Oncological Imaging: Practical Approach

- Diagnosis
- Imaging strategies in gynaecological malignancies
- Staging
- Response assessment
- Follow-up

Computer hands-on workshops

- PI-RADS v2.1
- Lung / Chest
- CT/MRI LI-RADS
- Characterising soft tissue masses - retroperitoneum to the extremities. A systematic approach.
- Colorectal MRI
- Whole-body MRI

Interactive workshop

- Focal renal lesions

Scientific paper sessions and poster exhibition

Prizes for the best oral presentations and best posters will be awarded at the course party on Wednesday evening.
