This new Masterclass in Head & Neck Imaging is a one-day workstation based teaching course that will provide an overview of the different tumoural lesions occurring in this complex body region. The relative value of different available imaging modalities will be addressed. Apart from the typical imaging patterns seen in different subsites, other examples of atypical appearing lesions will be illustrated.

Attention will be paid to pertinent findings that may change patient management. The role of imaging in patient surveillance after treatment of head and neck cancer will be reviewed. Our expert faculty have extensive clinical knowledge and experience, and delegates will benefit from mentored hands-on case-based learning with individual workstations. Between 35-40 brand new cases will be reviewed, each chosen to illustrate specific learning points, all summarised in a detailed workbook to use on the day and take home!

Learning objectives

- To discuss the patterns of spread of primary head and neck tumours on imaging studies
- To illustrate some diseases potentially mimicking the appearance of a primary head and neck neoplasm
- To discuss the value of post-treatment imaging in distinguishing expected findings, treatment complications and tumour recurrence
- To discuss the imaging findings in salivary and thyroid gland disease

Key Features

- Mentored case-based learning of 35 – 40 cases
- Each case chosen to illustrate specific learning points
- Detailed workbook and course material to take home

Course Programme

08:45 Registration

09:20 Welcome

09:30 Session 1

- Patterns of primary tumour spread
- Primary tumour and nodal tumour mimics

11:00 Break

11:20 Session 2

- Primary tumour and nodal tumour mimics
- Patterns of primary tumour spread

12:50 Lunch

13:40 Session 3

- Glandular disease
- Post-treatment imaging

15:10 Break

15:30 Session 4

- Post-treatment imaging
- Glandular disease

17:00 Close

Faculty

Prof. Robert Hermans

Dept of Radiology, University Hospitals Leuven, Belgium

Prof. Ann King

Chinese University of Hong Kong & Prince of Wales Hospital, Hong Kong

Prof. Davide Farina

Dept of Radiological Sciences, University of Brescia, Italy

Dr. Steve Connor

King's College Hospital and Guy's & St Thomas' Hospital, London, UK

Registration Fees

ICIS members

(includes coffee/tea & lunch):
£370 per person

Non-members

(includes coffee/tea & lunch):
£410 per person

How to Register

Register online at icimatingsociety.org.uk and going to the Computer Workshops pages

Or

Please complete all details on the registration form, indicate payment option, and post to:
ICIS, 41 Waddington Way, London, SE19 3UB.

Full payment must be received by 24 March 2023.

Registration will not be confirmed until full payment has been received.

CPD

Attendees will receive a certificate showing 6 CPD credits awarded according to the CPD scheme of the Royal College of Radiologists.

ICIS Membership

ICIS membership is open to all individuals with an interest in cancer imaging for only £80 per year. Benefit from reduced registration fees by **joining ICIS today!** Other membership benefits include:

- Discounted registration fees for the Annual Teaching Course and ICIS interactive one day workshops
- Access to our Members' only section of the website where you can view our webinars, lectures from previous meetings, as well as all our scientific and educational posters
- 20% discount on article processing fees for our journal Cancer Imaging
- Save 20% on CRC Press radiology and oncology publications

Important information

Please complete all registration details. Full payment must be received by 24 March 2023. Registration will not be confirmed until full payment has been received.

Reservations are subject to availability and will be confirmed within one week from receipt of completed booking form and full payment.

Refunds (minus an administration charge of £70) will only be made if written notification is received by 24 March 2023. Thereafter no refunds will be made.
