This second edition Masterclass in Oncological Whole-Body MRI is a one-day workstation based teaching course which will provide a foundational understanding of this specialised technique, imaging optimisation and application for both disease detection and incidental findings in the setting of cancer screening. A focus on myeloma will also highlight patterns of disease.

The comparative value of utilising WB-MRI for the detection of breast and prostate cancer will be demonstrated, along with its use for response assessment in bone disease. Our expert faculty have extensive clinical knowledge and experience of WB-MRI, and delegates will benefit from mentored hands-on case-based learning with individual workstations. Between 35-40 brand new cases will be reviewed, each chosen to illustrate specific learning points, all summarised in a detailed workbook to use on the day and take home!

Learning objectives

- To learn how to perform and read WB-MRI scans for disease detection and response assessments.
- To understand how WB-MRI can help maintain health by early disease detection and disease characterisation using the ONCO-RADS standard.
- To discuss guidelines and benefits of WB-MRI in multiple myeloma using the MY-RADS standard.
- To learn about the detection and bone response benefits of WB-MRI in prostate and breast cancer using the MET-RADS standard.

Key Features

- Mentored case-based learning of 35 – 40 cases
- Each case chosen to illustrate specific learning points
- Detailed workbook and course material to take home

Course Programme

08:45 Registration

09:20 Welcome

09:30 Session 1

- Technique overview and reading: detection of disease & incidental findings
- Disease detection in myeloma

11:00 Break

11:15 Session 2

- Disease detection in myeloma
- Technique overview and reading: detection of disease & incidental findings

12:45 Lunch

14:00 Session 3

- Detection uses in breast and prostate cancer
- Response assessment for bone disease

15:30 Break

15:45 Session 4

- Response assessment for bone disease
- Detection uses in breast and prostate cancer

17:15 Close

Faculty

Prof. Dow-Mu Koh.

The Royal Marsden Hospital, UK

Prof. Giuseppe Petralia.

European Institute of Oncology,
University of Milan, Italy

Prof. Anwar Padhani.

Mount Vernon Cancer Centre, UK

Prof. Christina Messiou.

The Royal Marsden Hospital, UK

Dr. Nina Tunariu.

The Royal Marsden Hospital, UK

Registration Fees

Payment online

ICIS Members SEK 4900

Non-Members SEK 5400

Payment by BACS (sterling only)

ICIS Members £365

Non-Members £405

How to Register

Full details and registration are available online at [icimatingsociety.org.uk/](https://www.icimatingsociety.org.uk/) via the [Computer Workshops](#) pages.

Please complete all details and indicate payment option.

Full payment must be received by 11 October 2024.

Registration will not be confirmed until full payment has been received.

CPD

Attendees will receive a certificate showing 6 CPD credits awarded according to the CPD scheme of the Royal College of Radiologists.

ICIS Membership

ICIS membership is open to all individuals with an interest in cancer imaging for only SEK 1200 / £90 per year. Benefit from reduced registration fees by **joining ICIS today!** Other membership benefits include:

- Discounted registration fees for the Annual Teaching Course and ICIS interactive one day workshops
- Access to our Members' only section of the website where you can view our webinars, lectures from previous meetings, as well as all our scientific and educational posters
- 20% discount on article processing fees for our journal Cancer Imaging
- Save 20% on CRC Press radiology and oncology publications

Important information

Please complete all registration details. Full payment must be received by 11 October 2024. Registration will not be confirmed until full payment has been received.

Reservations are subject to availability and will be confirmed within one week from receipt of completed booking form and full payment.

Refunds (minus an administration charge of SEK 940 / £70) will only be made if written notification is received by 11 October 2024. Thereafter no refunds will be made.
